

## Intern or working student – Product Analytics (m/f/d)

We are a fast-growing start-up in the heart of Munich that went from 3 to over 20 people in the last two years. We keep on growing this year and are looking for you.

Our app-based program supports participants of soft skill trainings to integrate learnings into their daily work life. Our vision is to help training participants grow professionally every day, instead of forgetting 90% of the training content. We combine deep psychological knowledge about human behavior with a digital approach. With this unique combination we are changing the training world (“HR Innovation Award 2017”, “Mittelstandspreis IT 2018”, “HR Startup Award 2018”).

### Your role

- You support our Analytics team along the whole Analytics process
  - Defining metrics
  - Collecting data
  - Implementing visualizations
  - Sharing insights with stakeholders

### Your profile

- You are a bachelor or master student
- You have excellent analytical thinking and detail orientation
- You are fluent in English
- At best you have experience using
  - Tableau
  - IntelliJ
  - Git
  - Java / Kotlin
  - SCRUM

### Your perks

- We treat everyone as equally important and give full responsibilities from day 1. This enables us to learn from each other daily
- We create impact. With technology we are changing the way people learn and grow, and you too can have an impact on this journey
- We live our vision. Monthly trainings are not only a matter of course for us, but also a part of our motivation to improve the world of trainings.
- We have fun at work and beyond. We organize team events regularly and there is always a reason to celebrate something with a cake

We invite you to send in your application to [laura.schubert@everskill.de](mailto:laura.schubert@everskill.de). Learn more about our fast-growing team on [www.everskill.de](http://www.everskill.de).
